

A day in my life.

I start my day with a beautiful smile because I hope that day will become my lucky day. At early 6:30 o'clock in the morning, I wake up for prayer. Then, at 7:00 o'clock I go to jogging with my cousin and friends. I want my body still fit and healthy. I finish jogging and back home at 9:00 a.m. Then, I take a shower and breakfast. At 10:00 a.m., I help my mother to do the work like washing, sweeping, and sometimes I'm also cooking. The work finished at 12 p.m. and I go to dining room to get my lunch with my family. I watch television at 2 p.m. Actually, I watched a television if only my favourite programme start. If there is no a favourite programmes, I take a book and do a revision or unfinished homework. Sometimes, I will go to library that nearby to my house and do a ^{study} group with my friends. I get more benefit when do this activity such as I can change opinion with my friends and I will get more information that I didn't know. I take a shower at 6:30 p.m. to go to mosque. I back home at 9:00 p.m. and get my dinner. After that, I will start back my revision and unfinished homeworks. I sleep at 10:30 p.m. or 11:00 p.m. at night.

When I grow up, I want to be a successful doctor. I want to be a doctor because this is my ambition since I still young and I want to help or give a treatment to patient or people who are sick. I hope it is not just my imagine and I will ^{make} sure it will become a reality. I will study, study and study! I will study hard until I ^{reach} to university and become a doctor at Dr. Siti Nursuhada.

I want to thank to Zonta Club and Norway Malaysian Association because give financial support ~~me a chance~~ to become a doctor. I really appreciate it. I make sure, study hard everyday and make my dream become a reality.
